

STANDARD

THE GENERAL PURPOSE SOLUTION

- Functional and effective.
- Primeguard™ Standard's combination of soft textile feel, breathable fabric construction and good barrier properties makes it the right choice for everyday work in non-hazardous dusty and dirty environments. Its two layer structure offers limited splash protection against low hazardous liquids.

COLOURS AVAILABLE

White

- Elasticated hood
- Full length zip and flap
- External blue overlapped seams
- Elasticated cuffs
- Elasticated ankles

MATERIAL CHARACTERISTICS

- 100% polypropylene - 47gsm nominal
- Good air permeability and water vapour transmission rate
- Limited splash protection against low hazardous liquids
- Good dust barrier hold out
